## Exclusive standard of design PREMIUM ×

Residence U Muzea is characterized by the use of exclusive material of the highest quality both for the interior design of the apartments and also in the common areas of the building. The outer façade is faced with stone, the common areas have luxurious floor and wall tile, glass railings, large aluminum windows, and outdoor blinds on the side of the building facing the street, automatic on the upper floors. The furnishings of individual apartments include luxurious, wood-tempered floors, exclusive bathrooms with large-format tiles, internal flush doors, and a number of other luxury design components. All units are equipped, moreover, with air-conditioning and several apartments have hydromassage tubs in their bathrooms. A security system with motion detectors in all units and garages and armored front doors ensure the safety of residents and their property.

Energy class: B

(The energy performance certificate of the building: [click for details](#))
